

PREGNANCY TRACKING SYSTEM (PTS)

User's Manual

The Pregnancy Tracking System (PTS) is a software or digital tool designed to help pregnant women monitor and manage various aspects of their pregnancy. These systems provide a convenient way for expectant mothers to track their health, keep a record of important information, and receive personalized guidance throughout their pregnancy journey. Pregnancy tracking systems can be accessed through websites, or dedicated devices.

A. START-UP AND LOGIN

A. Log in IT User Account:

To start, open the browser in your device and type <https://dohsox.com/doh/referral/login>. A list of Department of Health – Center for Health Development IT personnel will pop-up for your Contact Person. You will arrive at the Login Page and will be asked for your login credentials.

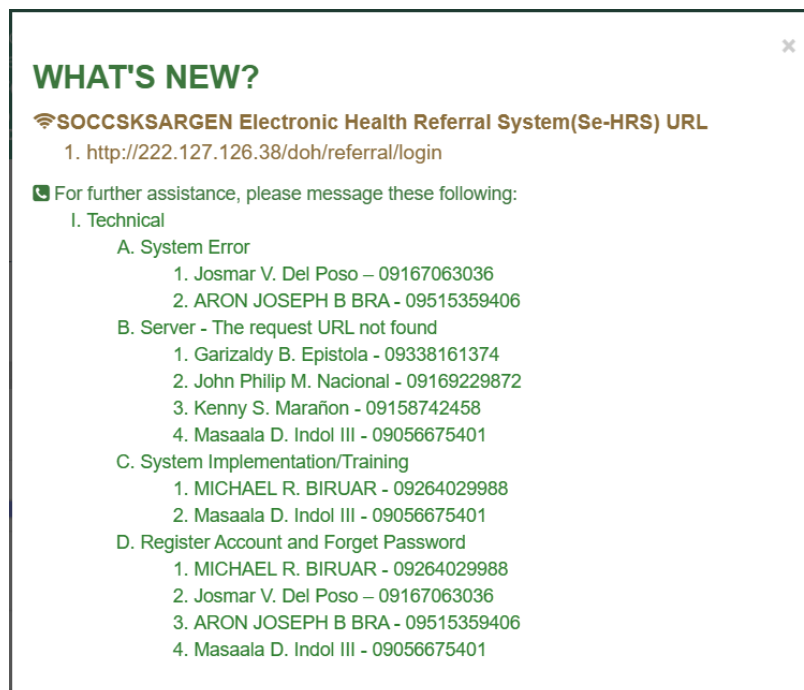

Figure 1. Screenshot of Pop-up List of Contact Persons.

A.A.1. Sign in the Created IT User Account

- For Hospitals and Birthing Homes: Please acquire your login credentials from your IT department or any PTS Point Person.
- For RHUs: Please acquire your login credentials from your respective PTS Point Person.

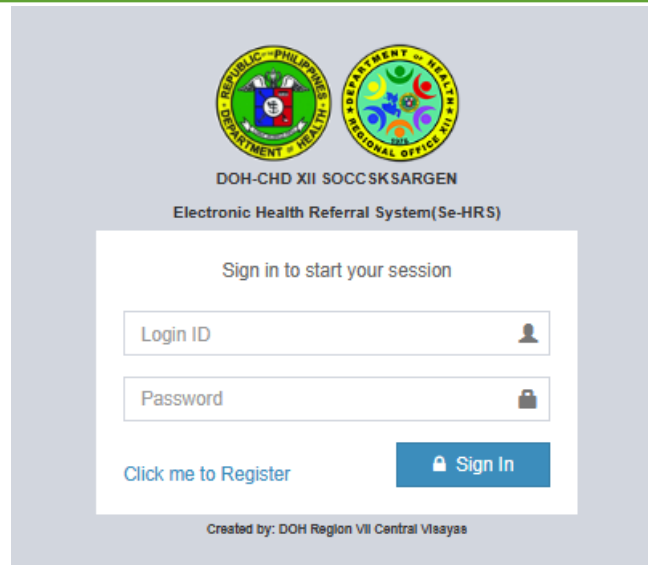

Figure 2. Screenshot on PTS Login Page.

B. II. Create Doctor's User Account:

- Allows the IT personnel to create User ID for doctor to access PTS.

To add a new PTS user account for Doctor, click **Manage Users** menu and **Add User** button.

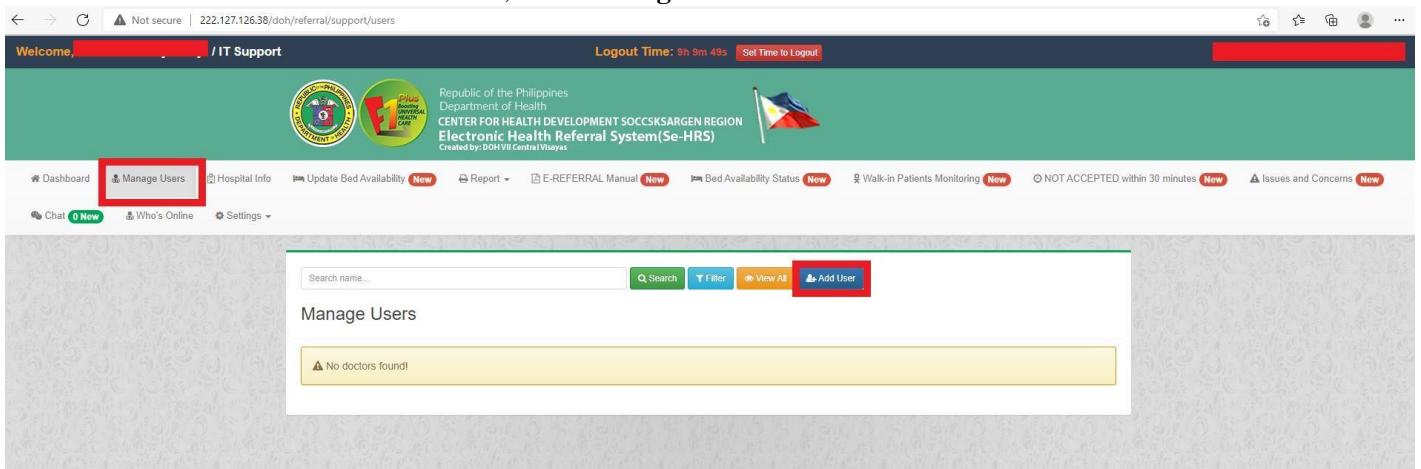

Figure 3. Screenshot on PTS Manage User Page.

- A.B.1.** Type in all the provided data and after entering all the data, click on **Save** button. To undo adding of new user account, click on **Cancel** button.
- A.B.2.** To edit certain User Account, input the user name in search box and click **Search** button, select user name. Enter the necessary changes, and then click **Update** button, for changes to take effect. To undo editing of an existing user account, click on **Cancel** button.

Figure 4. Screenshot on PTS Add User Page.

B. REFERRING A PATIENT

B.III. Created Doctor's User Account:

B.III.1. Log in Doctor's user account.

Figure 5. Screenshot on PTS Login Page.

- B.III.2.** Once logged in, you will be directed to the **Dashboard** menu where you can see your monthly activity of referred, accepted, and redirected referrals.

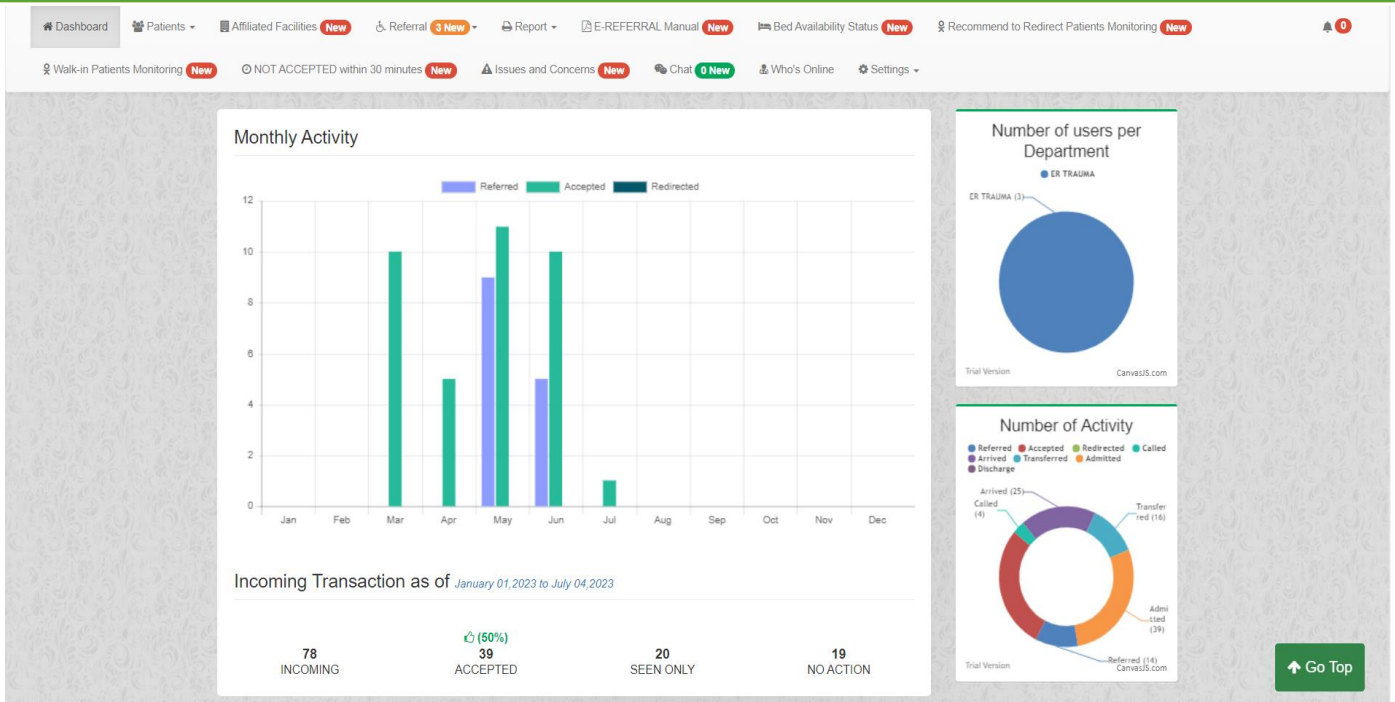

Figure 6. Screenshot on Dashboard Page.

B.IV. Adding or Searching Patient:

B.IV.1. Click on **Patients** menu, select **List of Patients** from the drop down list.

- **List of Patients** o Consist of a search bar that lets you search a patient when you are making a referral.

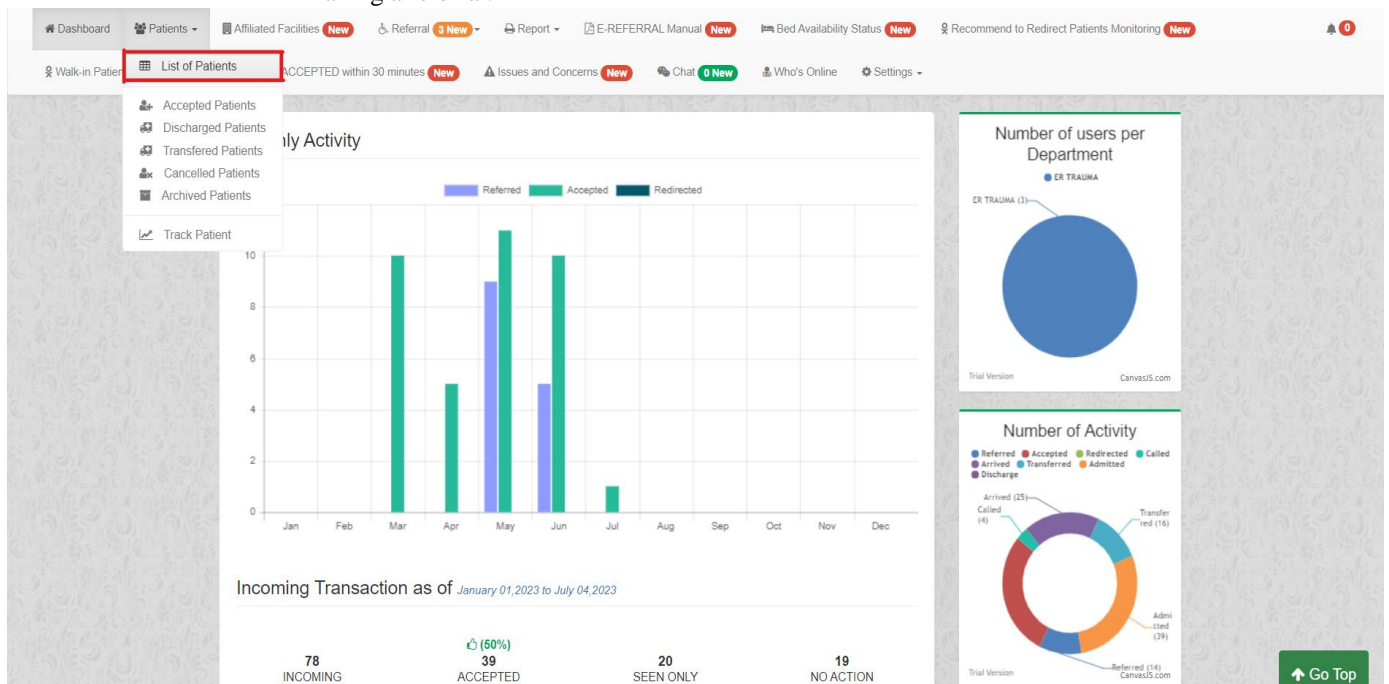

Figure 7. Screenshot on PTS Patient's Drop Down List Page.

B.IV.2. Click **Filter** button to let you search specific individuals based on the keyword that you type. If one is missing, it will not filter.

B.IV.3. If the "Patient not found" dialog appears, click **Add Patient** to add patient's information.

Figure 8. Screenshot on PTS List of Patient's Page.

- B.IV.4.** Fill-out the patient's profile form and click **Submit** button. To undo adding of a new patient profile, click on **Back** button.

Add New Patient

Figure 9. Screenshot on PTS Add New Patient's Page.

- B.IV. 5.** Once submitted, the created patient profile appears and now you may click the **Refer** button next to the patient details. Click **Walk-in** button for walk-in clients/ offline referral, those who are not in the system but were referred from a facility. You can click **VS/PE** to input the Vital Sign and Physical Examination of the patient. You can select Vital Sign and Physical Examination on the top part of the pop-up dialog window form upon clicking the button. You can submit the form if you are done inputting details by clicking the **Submit** button and **Back** button if you want to return to the Patient's Action Page.

Close Accept

Figure 18. Screenshot on PTS Referral Option Page.

- C.V.5. To view the accepted patients list, Click **Patients** menu and select **Accepted Patients** from the drop-down list. There you can also notice five active buttons as follows:
- Patients Arrived
 - Enables the user to record the exact time of arrival of the referred patient and notifies the referring facility.
 - Patient Didn't Arrive
 - You may click this button if the patient did not arrive for at least 4 hours after accepting the referral.
 - Patient Admitted
 - Enables the user to record the date and time of admission and notifies the referring facility.
 - Patient Discharged
 - Enables the user to record the date and time of the discharge and notify the referring facility. *Only choose this option if a patient is discharged without admission.*
 - Transfer Patient
 - Enables a user to refer to the patient even if he/she is already accepted.

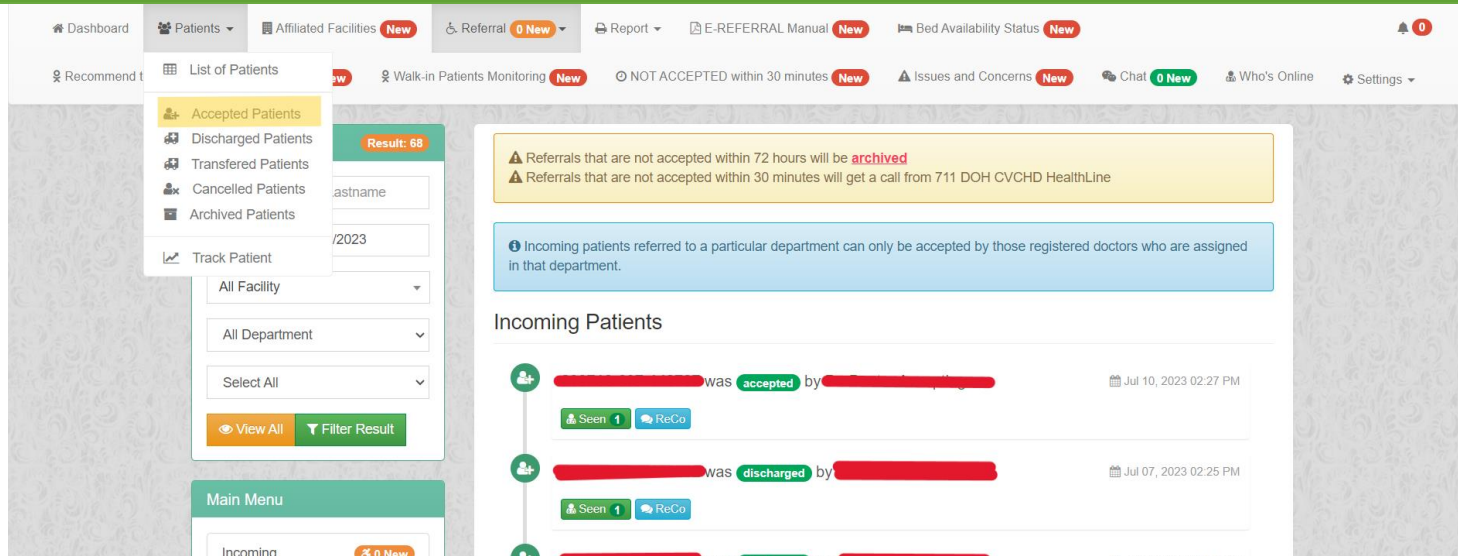

Figure 19. Screenshot on PTS Patient's Accepted Page.

ADDITIONAL INFORMATIONS:

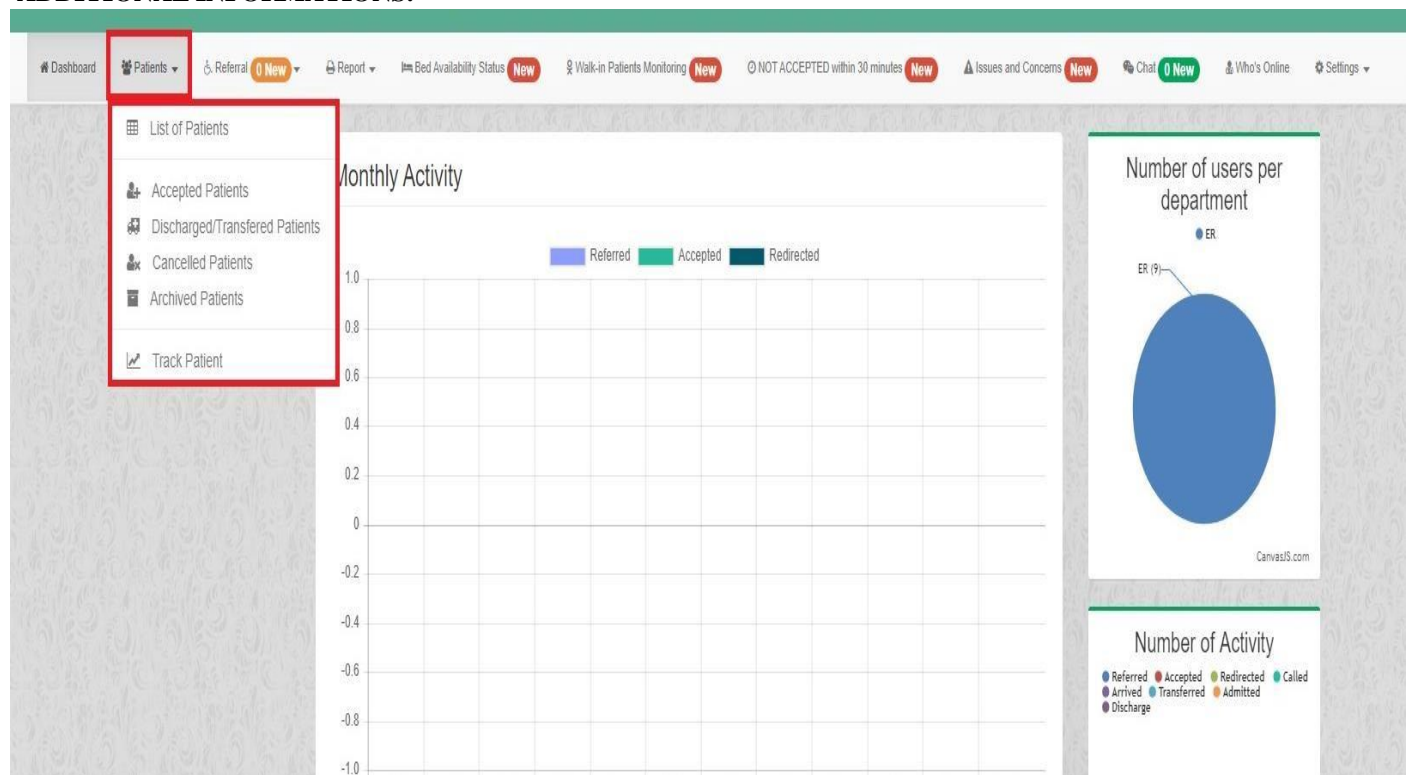

Figure 20. Screenshot on PTS Patient's Referral Option Page.

✓ **Patients**

- **List of Patients**
 - Consist of a search bar that lets you search for a patient when you are making a referral.
- **Accepted Patients**
 - Consist of a list of patients accepted by your facility and its corresponding details.
 - You may search a patient-by-patient code, first name or last name and you can also filter the date.
 - Once you click on a patient's name, the corresponding referral form appears.
- **Discharged/ Transferred Patients**
 - Consist of a list of patients discharged or transferred by your facility from the ER/ OPD unit and its corresponding details. These patients have not been admitted yet. Please note that this is different from the normally discharged patients from the wards.
 - You may search a patient-by-patient code, first name or last name and you can also filter the date.
 - Once you click on a patient's name, the corresponding referral form appears.
- **Cancelled Patients**
 - Consist of a list of referrals cancelled by your facility and its corresponding details.
 - You may search a patient-by-patient code, first name or last name and you can also filter the date.
 - Once you click on a patient's name, the corresponding referral form appears.
- **Archived Patients**
 - Consist of a list of referrals that have been automatically archived due to inactivity after 72 hours. Inactivity means no action was done when referral was submitted.
 - You may search a patient-by-patient code, first name or last name and you can also filter the date.
 - Once you click on a patient's name, the corresponding referral form appears.
- **Track Patient**
 - Enables you to track a particular referral once you provide its patient code.

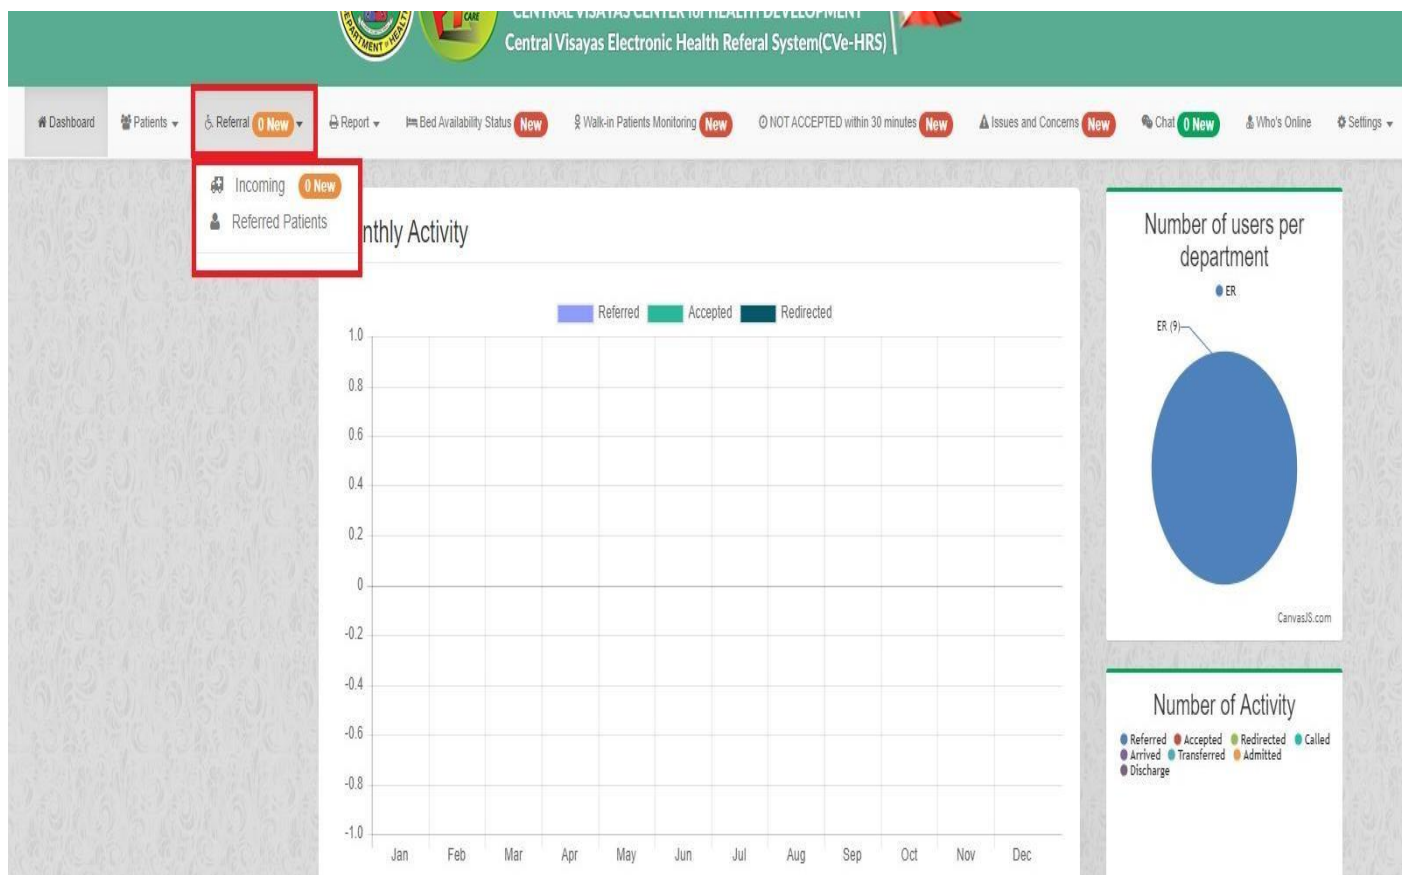

Figure 21. Screenshot on PTS Referral Option Page.

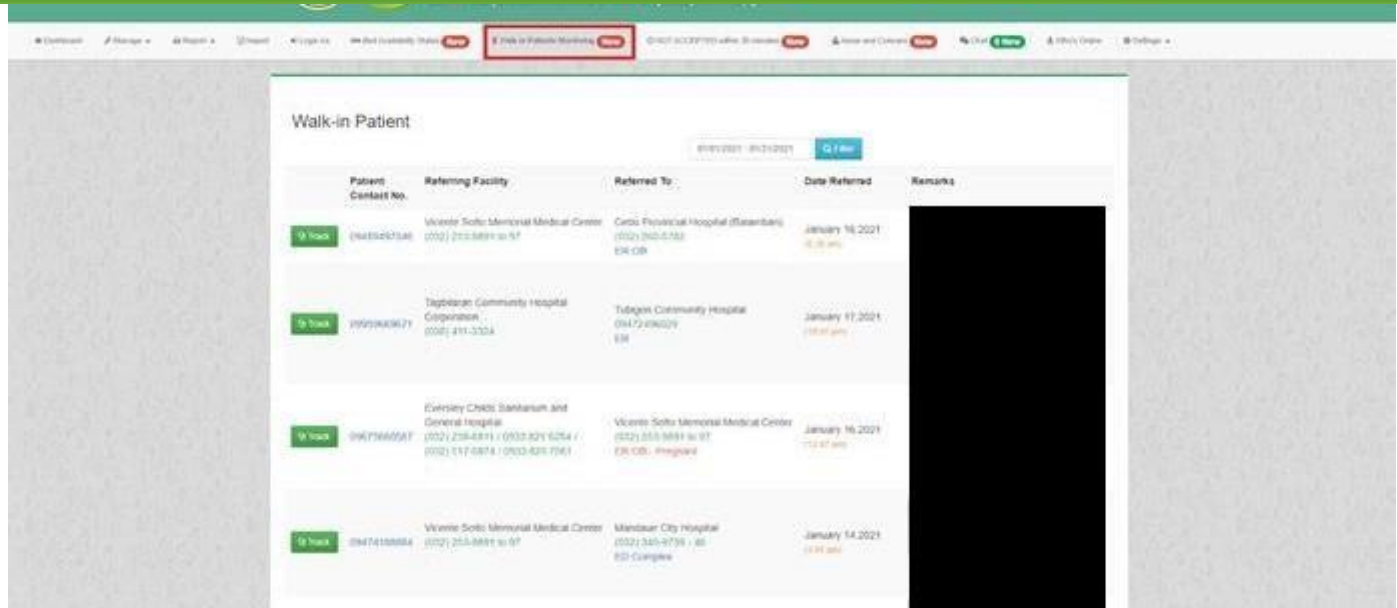

Figure 23. Screenshot on PTS Bed Availability Status Page.

✓ WALK-IN PATIENTS MONITORING

- Consist of a list of walk-in clients/ offline referrals by the health facilities and with corresponding remarks.
- You can filter by date range.
- Enables you to track a particular referral, once you click the **track** button.

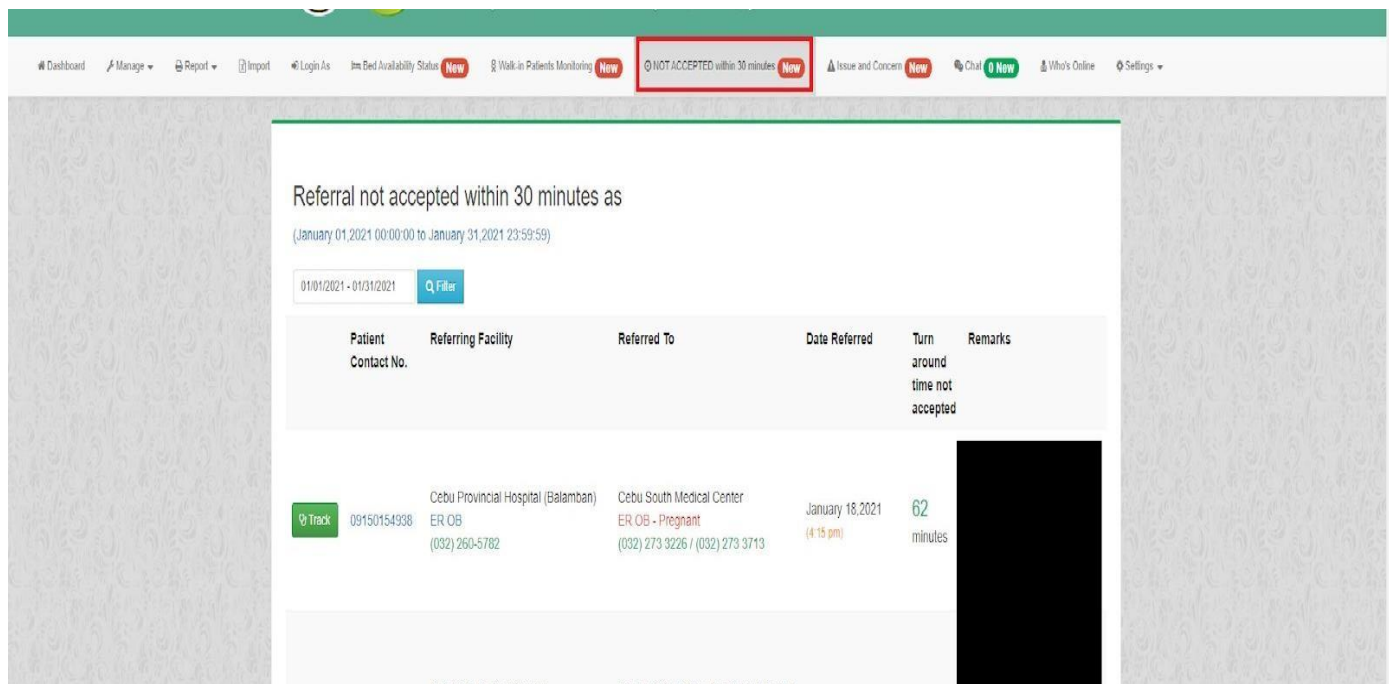

Figure 24. Screenshot on PTS Not accepted within 30 minutes Page.

✓ NOT ACCEPTED WITHIN 30 MINUTES

- Consist of a list of patients who are not accepted within 30 minutes or more by the health facilities and with corresponding remarks.
- You can filter by date range.
- Enables you to track a particular referral, once you click the **track** button.

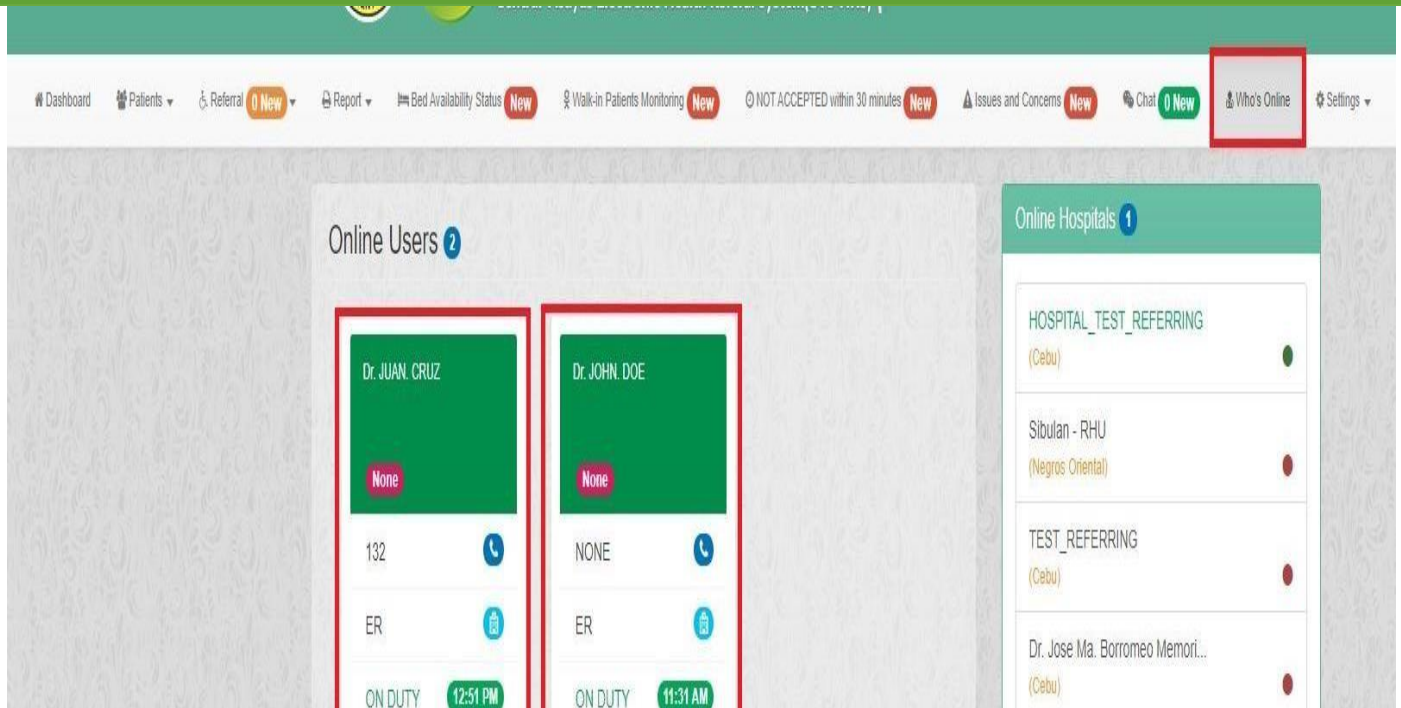

Figure 25. Screenshot on PTS Who's Online Page.

✓ WHO'S ONLINE

- Shows you a grid view of doctors from all participating facilities who are online and their status (on-duty or off-duty). This also shows you the specific contact number of each doctor and their assignments.

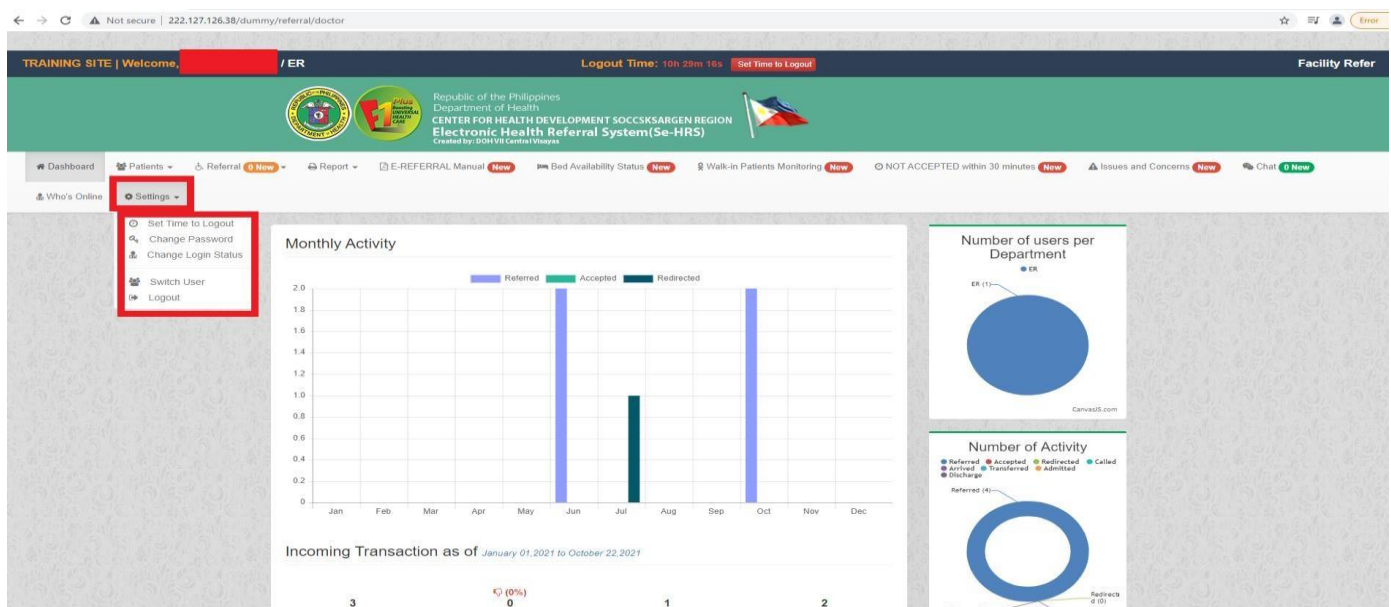

Figure 26. Screenshot on PTS Settings Page

✓ SETTINGS

- **Set Time to Logout**
 - Enables you to set the time you want to automatically logout.

- **Change Password**
 - Enables you to change your current password.
- **Channel Log in Status**
 - Enables you to change your status from Off-Duty to On-Duty or vice versa.
- **Switch User**
 - Enables you to switch from user to another in the same browser.
- **Logout**
 - Enables you to exit from your account.

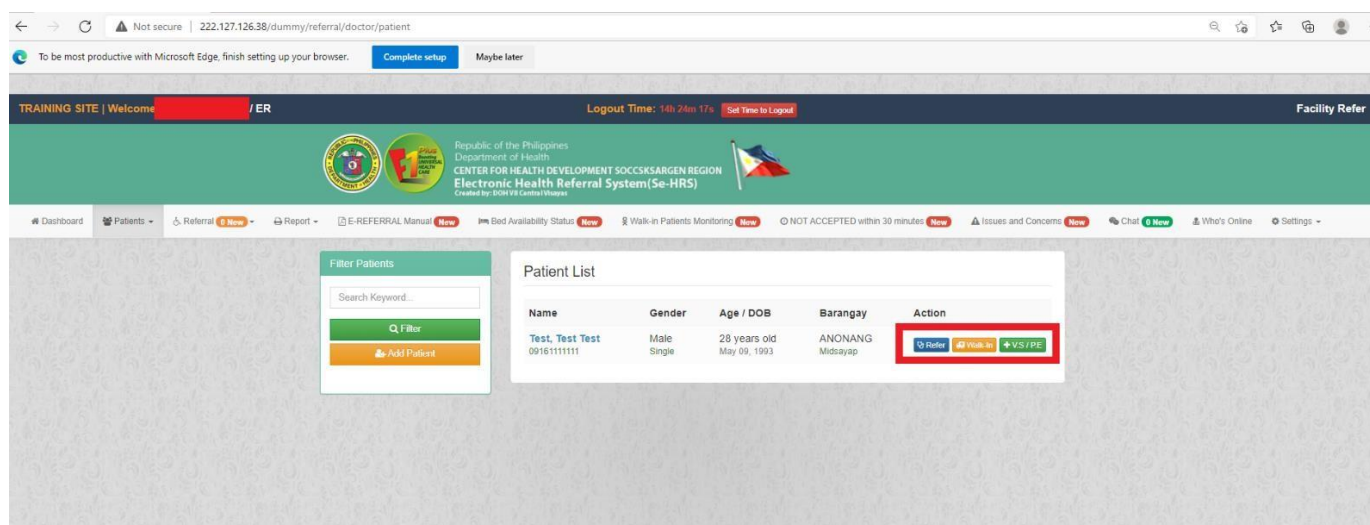

Figure 27. Screenshot on PTS Walk-in Referral Page.

- For walk-in clients/ offline referrals, those who are not in the system but were referred from a facility, you may use the same process as “Selecting or Creating a Patient” but you will choose the “Walk-in” button beside the patient details and fill-out the referral form.
